

# 3 NIGHT ITINERARY (example only)

**Whether you choose to take advantage of a Marina Night before your charter begins or arrive straight from the airport, you will be met by Tropic Sail staff on arrival at Breakwater Marina and personally escorted to your luxury vessel of choice ready for 6 days of exploration and total relaxation.**

## **DAY 1 - Explore on Island Time**

Welcome aboard, sit back and relax with a tropical fruit cocktail as the crew conduct formal introductions, a safety briefing and outline the voyage plan ahead.

Depart Breakwater Marina and cruise toward your first port of call - Magnetic Island; stopping at Florence or Radical Bay for lunch and some snorkelling or swimming. Early afternoon the skipper will up anchor and cruise around to Horseshoe Bay where you will spend your first evening.

Magnetic Island still retains much of the village atmosphere reminiscent of its early days of European development. Today, while some 2500 people call Magnetic Island home, over half of the island is given over as National Park and much of the surrounding waters preserved as Marine Park. The rugged beauty of the harsh granite island has been colonised by myriad species of plants and animals, making the island a magnet for nature lovers.

On arrival the Skipper will launch the boats dinghy to take you ashore to explore the island at your leisure. Restaurants, cafes and bars provide a relaxed distraction while the more energetic can indulge in numerous activities from sea kayaking to horse-riding and bushwalking. Whatever your inclination, you're sure to enjoy your time on "Maggie". Choose from a selection of restaurants the island has to offer for sundowners and dinner before meeting the skipper back on the beach in Horseshoe Bay for transfer back to your vessel to retire for the evening.

## **DAY 2 - Escape to Paradise**

Arise to a tropical breakfast ashore and some dugong spotting before setting sail north for The Palm Islands. On the way why not do some wildlife spotting to help out the Great Barrier Reef Marine Park Authority before stopping for a short break at Acheron Island. Enjoy a quick snorkel and light lunch before continuing to Palm Island to anchor down for the evening.

## **DAY 3 - Adventure, Seclusion or Relaxation?**

Wake up to another relaxed breakfast before weighing anchor and setting off for a number of full day options.

## **DAY 3 - Con't . . .**

These may include anchoring at Fantome Island for a leisurely day of exploring the incredible history of the island, snorkelling off pristine fringing reefs at Pelorus Island or visiting the world class James Cook University Research Station at Orpheus Island. After a full day of exploring, meet for sundowners on the back deck of the yacht and to catch up on the day's activities.

## **DAY 4—The fun isn't done just yet . . .**

Wake up to your last day aboard in a leisurely fashion with a relaxed breakfast before enjoying a final snorkel or swim in the secluded bay you're in. Take a turn at the helm with the skipper to learn some lasting tips as you sail or motor your way towards Orpheus Island and get ready to disembark at Orpheus Island Resort.
